4 Years (Year 1 Admissions)

2 Years (Senior Year Admissions)

Non-JUPAS

NJ8714S

BSc (AI & Educational Technology)

- Industry-Relevant Skills – Equip students with technical knowledge in AI, including machine learning, neural networks, natural language processing, computer vision, and data science, along with essential skills for diverse career paths.
- Interdisciplinary Focus – Integrates AI with educational technology, preparing students for careers at the intersection of these fields.
- Hands-on Learning – Emphasises practical experience through internships, projects, and lab work, enabling student to apply their skills in real-world settings.

Bachelor of Science (Honours) in Integrated Environmental Management

綜合環境管理榮譽理學士

Normal Period of Study

4 Years (Year 1 Admissions)

2 Years (Senior Year Admissions)

Non-JUPAS

NJ8702S

BSc (Integrated Environmental Management)

- In-depth Integrated Understanding – Tackle global sustainability challenges with a comprehensive understanding of scientific, regulatory, and ethical perspectives
- Experiential Learning – Engage in Internships, local and non-local trips, and community projects to apply your knowledge in real-world settings.
- Evidence-based & Communication-driven – Craft effective, evidence-based strategies for environmental sustainability, while mastering the art of impactful communication.
- HKIQEP Accredited Programme – The BSc(IEM) programme has been accredited by the Hong Kong Institute of Qualified Environmental Professionals (HKIQEP) under the HKIQEP Accreditation Scheme for Environmental Degree Programmes – Undergraduate Level, for the following FOUR areas:

HKIQEP 香港環專會

Environmental Science

Environmental Management

Environmental Impact Assessment and Health Impact Assessment

Water

- Graduates will have a shorter pathway to becoming Qualified Environmental Professionals, requiring only 5 years of environment-related work experience compared to 8 years for graduates from non-accredited programmes.

Bachelor of Science (Honours) in Sports Science and Coaching

運動科學及教練榮譽理學士

Normal Period of Study

4 Years (Year 1 Admissions)

2 Years (Senior Year Admissions)

Non-JUPAS

NJ8726S

BSc (Sports Science and Coaching)

- Integration of the subject knowledge of sports science, coaching, technology, and life education provides a comprehensive and in-depth training, leading to a wide range of career paths.
- Advanced courses with cutting-edge knowledge and theory allow students to keep ahead of peers, striving for success and excellence in the academic field(s) and workplace.
- Transforming students into sports coaching or sports technology professionals with solid theoretical knowledge through a comprehensive and in-depth programme curriculum to respond to the societal trends and needs to seise emerging opportunities.
- The internship training opportunities in Hong Kong, the Greater Bay Area, and overseas sports organisations provide an excellent chance for students to have a dialogue with sports leaders, build connections, enrich knowledge and skills, and lay a foundation for their future careers.
- Diversified and professional in-class and out-of-class learning activities help students bridge the theory into practice and understand the Hong Kong sports policy and the development of the sports industry to keep tabs on the pulse of society.
- Choose from two strands: Sports Coaching or Digital Technology and Sports.

Elite Athlete Friendly University

Familiarise students with key concepts in sociological analyses

Develop students' competency in designing, conducting and analyzing social research

Provide ample opportunities for students to link their sociological knowledge with community concerns and opportunities

Sociology-based

Community-driven

Experiential Learning

Academic Advising

All undergraduate students are assigned an academic advisor in their first year of study. The academic advisors will assist students in defining their study and career goals as well as developing study plans, and refer them to appropriate supporting units when necessary. The Faculty has provided financial support to departments for organising advisor-advisee activities.

Assist students in clarifying and attaining their educational goals, and developing study plans (e.g. selection of Second Major/ Minor/ Electives) with the help of academic advisors.

Assist students in drawing their study roadmaps that suit their own developmental and professional needs and choices.

Provide information for students following the new undergraduate curricula so as to maximise their learning opportunities under the provision of the curricula.

Empower students to make informed decisions as they develop study plans compatible with their potential, and their career and life goals, and take responsibility for their own learning.

Programme-based Internship

- The Internship is a 3-cp / 6-cp compulsory experiential and professional component of the programmes normally held in the first summer break.
- Students will work as an intern in an orgainsation in Hong Kong, Greater Bay Area, or overseas in the field related to their studies, where they can further cultivate skills and knowledge developed in the programme.
- It aims to provide students will real-life working experiences linked to their career.
- The Faculty has set up the **Dean's Outstanding Internship Award** to recognise and honour students for their outstanding performance, dedication, and achievements during internships.

Exchange Opportunities

EdUHK has more than 130 partner institutions over the world, including the Greater China Region. Students can join Student Exchange Programme for one semester or participate in Global Summer Programme of around 1-4 weeks. The Faculty also organises thematic Faculty-based 4-week Exchange Programmes.

Apart from the University-level Global Learning Enhancement Fund, FLASS also provides additional funding support for 2027/28 *:

Semester-long Student Exchange Programmes

HK$10,000 per student

Summer Exchange Programmes

HK$4,000 per student (40 quotas)

* *Subject to change.*

Talks and Sharing

The Programmes regularly organise alumni sharing, company visits, and career talks for students.

Bachelor of Arts (Honours) in Digital Chinese Culture and Communication

數碼中國文化與傳意榮譽文學士

(Four-year Full-time)

JUPAS:
JS8674

Non-JUPAS:
NJ8674S

Programme Features

The BA(DCCC) programme emphasises:

- **Intersections of Chinese language and culture with media, intercultural studies and digital literacy.**
- Enabling students to develop an integrated knowledge and sophisticated professional profile to contribute to the culture as well as commercial and Chinese education sectors:
  - Chinese culture and creative industries
  - Publishing and social media

- Students will gain hands-on experience with digital tools for language applications, which will empower them to **develop creative digital contents for language learning and cultural communication**, produce and publish innovative and engaging contents in digital media, and apply digital tools in the field of Chinese communication.

Programme Features & Structure

- The balanced development of **language, literature, culture, linguistics and digital literacy skills** demonstrates the unique features of the new programme.
- All students are required to participate in a compulsory credit-bearing **internship** to apply their scholarly knowledge attained from their class in practical context.
- The BA(DCCC), **which includes a Chinese Language Strand, has also attained SCOLAR recognition** for those who aspire to pursue careers in the Chinese education sector.
- The BA(DCCC) curriculum also aims to prepare students to be future-ready, **support student employment and multiple career pathways**, equip students with the necessary skills to meet diverse workplaces, and offer students with **Greater Bay Area/Chinese Mainland experience**.

Domain	Subtotal (cps)
Major	
• Major Course	**24**
• Cross-Faculty Core	**3**
• Major Interdisciplinary Course	**3**
• Internship	**3**
Minor / Electives	**15**
General Education	**6**
Final Year Project (Honours Project / Capstone Project)	**6**
Total	**60**

Career Prospects

Graduates of the programme can engage in

- **Chinese culture and creative curation**
- **Advertising, media**
- **Journalism, publishing**
- **Chinese education**
- **Arts management**
- **Museum work**

These fields require individuals who can handle and analyse data efficiently and effectively from the modern Chinese communication landscape.

Bachelor of Arts (Honours) in English Studies and Digital Communication

英語研究及數碼傳訊榮譽文學士

(Four-year Full-time)

JUPAS:
JS8675

Non-JUPAS:
NJ8675S

Programme Features & Structure

- The BA(ESDC) programme aims to cultivate a new generation of English studies students with **strong digital literacy skills** through a digitally enriched curriculum.
- The programme provides a wide range of courses to build a solid foundation in English language, linguistics and digital literacy, consolidated by **hands-on experience in using digital tools for language applications**.

Domain	Subtotal (cps)
Major	**30**
Electives	**18**
General Education	**6**
Final Year Project	**6**
Total	**60**

- Students will be empowered **to develop digital contents for the learning and teaching of languages, to publish in digital media and to support and critically evaluate digital communication solutions.**
- A combination of English studies and digital communication technology will allow students to further contribute to the transformation of education, media, and publishing in the digital age.

Programme Highlight

"We can **work for enterprises or businesses with technology-driven innovation** in which good English communication skills and digital competency are required."

"The internship experience prepares me for my future career **as a language specialist in software companies**."

Programme Highlight

Site visit to the Hong Kong Science and Technology Park in **Enhanced Capstone Project Pathway**

The programme **includes both the use of technology and the exploration of English studies**. The combination of both fields sounded exciting to me.
