Testimonials

Ms Leung Ho Ying

This programme has equipped me with the knowledge and skills to support students with diverse learning needs. I have learned different strategies to create inclusive learning environments through a combination of theoretical coursework and practical field experiences. Placements allow me to apply what I have learned in real-world settings, working directly with students and collaborating with experienced special education teachers. This has made me more confident in working in a special school and handling different situations.

Ms Ho Chiu Tung

The programme offers a comprehensive curriculum that covers a diverse range of topics within the field of special education. Through coursework and practical training, I have gained a deeper understanding of different types of special needs. The teaching staff in the programme are all experienced practitioners in special education. Their professional knowledge, as well as their dedicated attitudes, have been inspiring to me throughout my journey at the university. The knowledge and skills I have received in the programme have prepared me to make valuable contributions to supporting students with special needs.

Note

Students admitted into this programme are required to visit the Greater Bay Area (GBA) and/or other parts of Mainland China. The programme may also require students to participate in other non-local learning experience for completion of the programme. While the visits are subsidised, students are required to contribute part of the estimated cost of the visits ("students' contribution"), whereas any personal entertainment, meals expenses, travel document fee and personal insurance costs shall be at students' own expense. The estimated cost of the visits and students' contribution for students admitted to the coming cohort is yet to be available due to a variety of factors such as inflation of cost of the visits, trip duration, traveling expenses, the exchange rate, etc.

Any aspect of the courses and course offerings (including, without limitation, the contents of the course and the manner in which the course is taught) may be subject to change at any time at the sole discretion of the University if necessary. Without limiting the generality of the University's discretion to revise the courses and course offerings, it is envisaged that changes may be required due to factors including staffing, enrolment levels, logistical arrangements, curriculum changes, and other factors caused by change of circumstances. Tuition fees, once paid, are non-refundable.
